

Unblinded Clinical Trial Manager

You have been assigned as an uCTM on a global study. The study is being conducted in the United States, Canada, Germany, Belgium and United Kingdom. There will be a total of 50 sites across all countries with the following breakdown:

30 SITES
in the USA

2 SITES
in Germany

7 SITES
in the United Kingdom

8 SITES
in Canada

3 SITES
in Belgium

How many uCRAs will you need and by when?

What information would you need to start your planning?

HINT

You will need your study timelines and when each country is expected to have their first SIV.
