

## Revolutionize Quality and Efficiency for the Benefit of Clinical Trials and Research Teams

At ClinEssentials, we are resolute in our mission to carry out our commitment to positively impact the essential, life-changing industry of Clinical Research. We want to partner with Sponsors and CROs to help improve training and job placement while also increasing the productivity and work/life balance of your teams!

### Who We Are

With our ever-changing and high-speed industry, ClinEssentials is determined to continue our support in the following ways:

**Time-saving Tools** that streamline the monitoring process and result in more organized communications and safer, higher-quality research. Our flagship product, CRA Audit Notes, increases efficiency in monitoring by up to 30%.

**The Career Services Program** offers confidential consultations to help research professionals navigate their Clinical Research careers.

**The CTM Training Course** prepares experienced Clinical Research Professionals for the Clinical Trial Manager role by providing a comprehensive training program.

**As a Workforce Solutions Provider**, we specialize in sourcing, vetting, and deploying skilled professionals across many Clinical Research projects. With an unwavering commitment to quality and excellence, we consistently exceed our client's expectations.

When research professionals excel in their work, they are more successful at running smooth clinical trials that prioritize patient safety and yield high-quality results on time and within budget.

### How We Partner with Sponsors and CROs

**JOB PLACEMENT** ClinEssentials offers tailor-made staffing solutions that include the following:

#### Expert Talent Acquisition

Through our extensive network and rigorous selection process, we present to you only candidates with the right skills and cultural fit.

#### Comprehensive Skill Matching

We match candidates' skills, expertise, and personalities to the specific project requirements, ensuring seamless integration.

#### Flexibility

Whether you require short or long-term staffing, our staffing solutions can scale to your unique needs.

#### Regular Performance Reviews

Our commitment to your success continues after placement through performance reviews to ensure our candidates consistently meet your expectations and offer positive contributions.

**PRODUCTS** Upon placement, each CRA will receive one complete CRA Audit Notes bundle (16 CRA Audit Notepads) and training on using the products. Your company can purchase replacement CRA Audit Notes at a discounted rate of 50%.

Increasing efficiency reduces hours of repetitive tasks without forgoing quality, so CRAs can take on additional studies or sites. This leads to an improved bottom line by bringing more revenue to your organization. In addition, CRA Audit Notes are used at the site level to improve action item closure time and to enhance CRA and site staff communications.

**TRAINING** We believe in the importance of professional development. Our training program is designed to upskill assigned contractors, making them more valuable assets for your business. We offer standard training packages and customized solutions tailored to your needs.

Our signature CTM Training Course is ideal for candidates who you would eventually like to transition into a Project Manager/Clinical Trial Manager role. With cross-training, candidates are better equipped to hit the ground running and can easily take on more responsibilities. CTM Training participants are more prepared, less overwhelmed, and have improved confidence in their ability to set up their study for success.

**CONSULTING** Our consulting services further enhance your workforce strategies. Experienced consultants can provide valuable insights and recommendations to optimize hiring processes, workforce planning, and talent management.

## Partnership Packages

The following three packages are available based on the level of engagement you would like from your partnership with ClinEssentials. We also provide customized packages to offer the best fit for your needs.

MOST ECONOMICAL	MOST POPULAR	BEST VALUE
